## Mission

The mission of Project REACH is to help families with young children to make lasting health and safety improvements in their lives. These improvements are accomplished by first stabilizing families in crisis, then identifying and creating solutions to problems that lead to crisis. Project REACH program activities are evidence-based and encourage responsible parenting, self-sufficiency and academic preparedness.

## Project R.E.A.C.H. Desired Results

- Families in crisis will be supported to stabilize their living situation.
- Families will identify short and long term challenges leading to crisis and begin to build confidence to create solutions.
- Children will grow, thrive and learn.
- Families will enhance their literacy, employment and social skills to attain and maintain well paying jobs.
- Families will increase their income to meet their basic needs.
- Families will engage effectively with community resources.
- The community we serve will be safe and welcoming to our clients

THIS PROJECT IS MADE POSSIBLE BY
